

## AN URGENT LETTER TO OUR UNIONS

Brothers and Sisters:

The *Labor Tribune*, an invaluable resource to union members in our community, is publishing a special right-to-work supplement July 30 that should be in the hands of every union member in the Greater St. Louis area.

This supplement will provide the critical information union members need to understand right-to-work and what it will mean to them and their families.

The fight against passage of right-to-work in Missouri did not end with Governor Nixon's veto of this wrong-headed legislation.

We strongly urge you to sign-up for this supplement to place this information in the hands of your members. The jobs we save will be our own.

Sincerely,

Jeff Aboussie  
Secretary-Treasurer  
St. Louis Building & Construction Trades Council

Pat White  
President  
Greater St. Louis Labor Council
